

## INDEX

1. GKENAS *et al.* Westwards expansion of the European catfish *Silurus glanis* in the Douro River (Portugal)
9. MARC ORDEIX AND FREDERIC CASALS. Why and when do freshwater fish migrate? Observations of migration patterns of the native fishes from the Iberian Peninsula (SW Europe)
29. MUÑOZ *et al.* Girogonitos de carofitas en el Parque Nacional de Doñana: Su registro en sedimentos pleistocenos y holocenos
45. RUEDA *et al.* Nuevas aportaciones sobre las esponjas de agua dulce (Porifera: Spongillidae) en aguas temporales de Costa Rica
59. SANTOS SILVA *et al.* Life cycle traits, secondary production and DNA barcode of *Oxyurella ciliata* Bergamin, 1939 (Crustacea, Branchiopoda, Anomopoda, Chydoridae)
75. OLMO *et al.* Freshwater microcrustaceans of Hispaniola: new records and potential as biological control agents
89. COLLS *et al.* Impacts of diffuse urban stressors on stream benthic communities and ecosystem functioning: A review
109. MASSON *et al.* Longitudinal patterns in water quality and fish assemblage structure in a low-gradient, temperate Neotropical stream disrupted by a point-source urban effluent
129. LLANQUÍN-ROSAS *et al.* Benthic macroinvertebrates community structure and physicalchemical characteristics at Lauca River Basin high altitude wetlands, Altiplano, Chile
145. SOLÍS-GONZÁLEZ *et al.* Prediction of the toxic impact on the freshwater microalgae *Scenedesmus intermedius* produced by the interaction of copper sulfate and copper oxychloride in a binary mixture with glyphosate
159. MABANO *et al.* Exposed sediments in a temperate-climate reservoir under dam decommissioning contain large stocks of highly bioreactive organic matter
